PROFILE

Hardworking, organized, and process-oriented web developer with a long history of corporate IT experience. A fast learner and open communicator, I take pride in overcoming new challenges and becoming an expert in everyday tasks.

EXPERIENCE

SPECIALIST, KNOWLEDGE MANAGEMENT OCT 2024 - PRESENT

Davis Polk LLP – New York, NY

Managed the firms intranet and wiki resources, ensuring content was accessible, organized, and up to date. Created HTML Markup versions of PDF, Excel, and Word documents to be hosted on the intranet, and wrote and deployed scripts to automate portions of our work. Worked with end users to create layouts using CSS, JavaScript, and HTML that would make their portions of the intranet more accessible.

SPECIALIST, MULTIMEDIA NOVEMBER 2022 - OCTOBER 2024

Davis Polk LLP – New York, NY

Responsible for scheduling, setting up, recording, and editing of client and internal meetings. Played a crucial role in the migration of content to, and administration of a new video hosting server. Created custom CSS files to ensure our branding was consistent on Multimedia managed devices and web pages.

A/V OPERATIONS TECHNICIAN AUGUST 2017 - NOVEMBER 2022

Morgan Stanley – New York, NY

Responsible for planning and executing broadcast quality events, building a knowledge base that is still used to onboard new employees, and serve as crew lead for the live streaming and recording group within the Audio Visual department.
